SPIRIT OF ADVENTURE

There is something truly special about Western Australia. Whilst many of the world's tourism destinations are over crowded and well trodden, Western Australia is an unpolished gem; unspoilt, unpretentious and brimming with unique adventures and heartfelt moments.

We invite you to EXPLORE, INDULGE and UNWIND in our great state.

EXPLORE ANCIENT TRACKS

Aboriginal guides take visitors on a journey across 60,000 years of cultural history, through a vast array of captivating stories and experiences such as gathering and tasting traditional foods, fishing, exploring ancient rock art sites, 4WD adventures, and camping under a canopy of stars.

BAREFOOT LUXURY

Catch wild lobster and enjoy fresh local produce at an intimate beach dinner. Sip fine wines with pans of paella balanced on rocks at a remote bay. Indulge on a luxury walking tour through the lush green Margaret River region with tasting stops along cliff tops.

OTHERWORLDLY PHENOMENA

Swim alongside majestic whale sharks, humpback whales and back flipping manta rays. Visit bubblegum pink lakes, majestic horizontal waterfalls and dinosaur footprints. Enjoy a chilled wine and the wonderment of the staircase to the moon in the Kimberley.

MAJESTIC LANDSCAPES BIG SKIES

Marvel at the Pilbara night sky. Hike through the towering Kimberley gorges. Swim in deep rock valleys at Karijini National Park, or take in the breathtaking views over King George Falls. Helicopter ride over Purnululu's incredible Bungle Bungle Range.

FULL OF CHARACTER

Learn ancient stories and local history from a Kimberley Indigenous elder, have a yarn with locals over a beer in a small town pub or make friends with unique and memorable characters you meet on the road. Connect with travellers on a remote outback tour.

TRAVEL TIPS:

Travelling through the unique towns and open spaces of Western Australia is an experience never to be forgotten. Red sands of the outback meets the clear turquoise water of the Indian ocean, and lush green National Parks meet the rugged south west coastline.

While the remoteness, wildlife, sense of freedom and space are what makes Western Australia so special, they can also cause some problems for the unprepared, particularly in the remote North West. Hello Perth has put together some useful tips to help make your holiday as pleasant and safe as possible.

DRIVING

It is important that your vehicle is in roadworthy condition and mechanically capable of safely completing your journey.

- Check your spare tyre is inflated and in good working order.
- Carry plenty of water for yourself, passengers and vehicle.
- Ensure you have adequate tools to make vehicle repairs.
- If you should break down remain with your vehicle until help arrives; wait for the next passing car; never walk off through the bush to find help.
- Be careful overtaking road trains as trucks can be towing three or four trailers and be more than 50 metres in length.
- Carry an adequate first aid kit.
- Check unsealed road conditions as closures can occur after heavy rain.
- Call the Main Roads Department for the latest road conditions on 138 138 or contact the local Visitor Centre.

WILDLIFE

Look out for wildlife particularly when driving at dusk, dawn and night as kangaroos, emus and cattle are on the move and can be difficult to see at these times.

Kangaroos in particular can be a hazard so driving at night is best avoided on country roads.

Crocodiles are found across the north of Australia including the Kimberley region. Avoid getting into or near the water in these areas; keep a look out for signs and if in doubt, contact the local Visitor Centre for information regarding crocodile locations.

If bushwalking, ensure you have adequate foot protection against snakes; they are rare to see and are more scared of you but can bite if trodden on or if they feel threatened; familiarise yourself with procedures; visit lifesavingwa.com.au.

The largest tides in the southern hemisphere (over 11 metres) are found in the North West and care should be taken around tidal areas. Check tidal charts to avoid being caught out.

Road Safety Commission

A lack of sleep slows your reactions and decisions when driving, increasing the risk of a crash. It can also cause micro-sleep. Five seconds of this at 100km/h is like driving the length of a football field blindfolded. To arm yourself against fatigue, regularly get 7.5 hours of sleep a night. On long journeys, take a break every two hours and swap drivers regularly.
